[11/2023 – 03/2024]

Unity Essentials Pathway

This pathway is designed for new creators to Unity and real-time content creation. Participants learn to define real-time production, use essential features of the Unity Editor, navigate in 3D space, create and manage Scenes, GameObjects, Prefabs, and publish a simple Unity project. It confirms foundational understanding of real-time streaming processes, scripting fundamentals, and content creation within Unity.

[12/06/2025]

AI for Beginners

Successfully completed the "AI for Beginners" online course offered by HP LIFE & UNIDO. This course provided foundational knowledge of artificial intelligence (AI) and its impact on industries, economics, education, and daily life. Topics covered included:

- Key AI concepts like machine learning, generative AI, and large language models
- Importance of data in AI
- Real-world AI applications in business workflows
- Ethical, legal, and regulatory considerations in AI
- Emerging AI trends

This certification validates my readiness to support businesses in leveraging AI tools for smarter decisions and growth.
